SIGMA ACTUARIAL CONSULTING GROUP, INC.

Biography

Tony King
Actuarial Consultant

Tony has spent over 25 years in a variety of risk management roles, having joined SIGMA in 2004 as an Actuarial Consultant. Beyond providing actuarial consulting services with SIGMA, Tony has experience in managing credit risk, residual risk, and interest rate risk.

Tony's consulting services with SIGMA include a specialization in data management and analysis. He manages the preparation of actuarial reserve analyses and loss projections for clients across a range of industries. His primary focus lies in workers compensation, automobile liability, general liability, and products liability insurance coverages. In addition, Tony also serves as an advisor for small risk-bearing entities, utilizing his expertise in financial forecasting and risk analysis.

Tony also plays a vital training and support role for SIGMA's RISK66. He assists a variety of clients in developing forecasts to best fit their needs. He has also assisted in product development, exploring new ways to help RISK66 users manage their risks.

Prior to joining SIGMA, Tony developed a strong background in financial modeling including concentrations in forecasting and risk analysis. His specific experience within the automotive finance industry included the development of a detailed company business plan, the creation of a comprehensive attribute analysis of retail customer behavior, and the projection of lease-end values of multiple car lines. Within the banking industry, his expertise focused on the analysis of the corporate balance-sheet duration and convexity position and the management of interest rate risk through option-based hedging strategies.

Tony graduated summa cum laude from Indiana University's Kelley School of Business - Indianapolis in 1993, receiving a B.S. Degree in Business with Honors in Finance and minors in Economics and Mathematics.
