

Jason Luckett, ACAS, MAAA
Consulting Actuary

Jason is an Associate of the Casualty Actuarial Society (ACAS) and is a member of the American Academy of Actuaries (MAAA). He joined SIGMA in 2016 and is currently working as a consulting actuary.

Jason's consulting services with SIGMA involve the preparation of actuarial reserve analyses, loss projections, and loss allocations for self-insurers, large deductible programs, and captives across a range of industries for both traditional and non-traditional risks. He also performs statistical simulations to model client losses and to assess the effects of varying levels of risk retention.

In addition to his consulting duties, Jason assists with product development for SIGMA's RISK66 suite of services, compilation of SIGMA's industry benchmarking data, and coordination of responses for project proposals.

Jason was featured in issue 198 of the Captive Insurance Times as an emerging talent within the captive insurance industry and later featured in Captive International's 2024 Forty Under Forty list. Additionally, Jason has written, and co-written published articles featured in Captive International. He also participates in the production of SIGMA educational content including blog posts and their online book club.

Jason graduated summa cum laude from Middle Tennessee State University in 2016 with a Bachelor of Science degree in Mathematics with a specialization in Actuarial Science and a minor in Insurance. Jason earned his Associate of the Casualty Actuarial Society (ACAS) and became an approved Member of the American Academy of Actuaries (MAAA) in 2024.
